

A finger on the pulse of your car

Automatic connects your mobile device with a small adapter to give you the vital information you need about your car. Follow the steps below to activate safety and convenience features to leave worry in your rearview:

- 1 Download the **FREE Automatic app** on your smartphone
- 2 Locate the **PIN on the Automatic materials** provided by your Dealer or on the adapter itself
- 3 Complete account setup in-app and enable **Crash Alert** and all other features
- 4 Drive off the lot in your connected vehicle!

Know more. Worry less.
Drive with confidence
whenever you hit the road.

Get three years of FREE service including Crash Alert and a 6-month Premium Subscription when activated with the purchase of a compatible vehicle. No credit card required.

For more information about Automatic, visit us at **automatic.com**

Automatic. A SiriusXM® company.

P/N: 73009-4A

Drive free of unknowns

Take on any adventure with connected features so you can drive confidently, knowing you're ready for whatever the road throws your way.

Ask your Dealer about three years of FREE service including Crash Alert and a 6-month Premium Subscription when activated.
No credit card required.

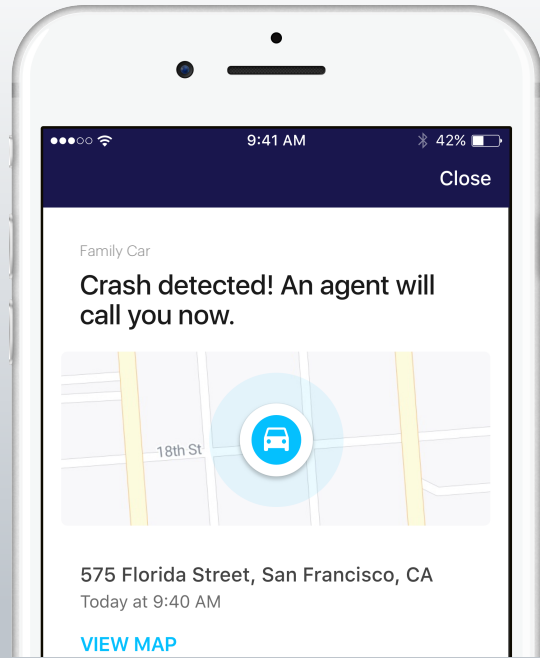

Maintenance made easy

Perform **Vehicle Diagnostics** through the Automatic app when your check engine light comes on. If a serious issue is detected, you can book an appointment with your Dealership directly through the app.

Get **Service Notifications** like maintenance reminders, recall alerts and other important information about your vehicle.

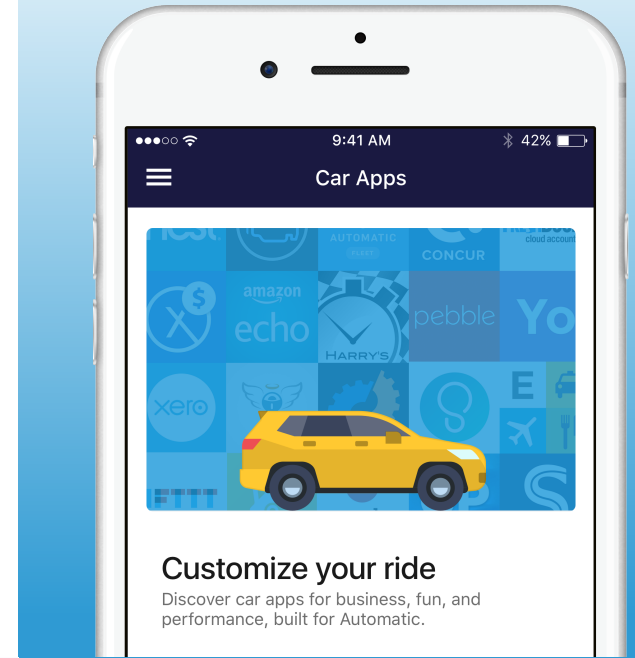

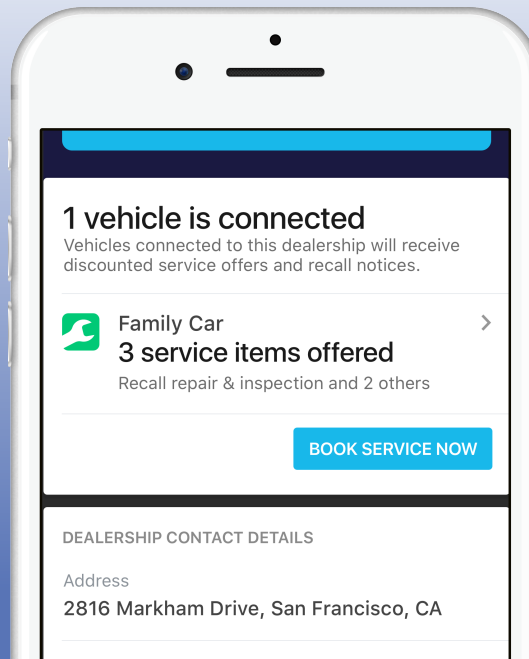

There when you need us

When the unthinkable happens, Automatic is watching out for you and your family with **Crash Alert**. Our trained responders are ready 24/7 and will contact you, emergency services, and even your loved ones when we detect a serious accident.

Our **Roadside Assistance** team coordinates exact location, car appearance, and time of arrival between you and towing and repair services to make sure the right help is delivered right to you, right when you need it.

Your car, connected

Real-Time Location will help you keep track of your car in a crowded parking lot or your kid on the way home from prom night. With real-time location tracking, you can know for sure.

Let your car manage your home with **Smart Home Integrations** for Alexa and Nest. Plus, connect to other apps like one-click business travel expensing, mileage tracking and more. Learn more at automatic.com/apps.
