

Drive your customers back when it's time for service.

INCREASE SERVICE LANE TRAFFIC AND REVENUE

- Customers receive convenient service reminders and recall notifications directly through the app
- Notifications prompt customers to book service appointments at your Dealership only

ADD IMMEDIATE VALUE TO EVERY VEHICLE ON YOUR LOT

- Connected features make every car on your lot more attractive
- Most cars, model year 1996 or later, are compatible

GIVE YOUR CUSTOMERS MORE CONFIDENCE ON THE ROAD

- More knowledge: Check Engine Light Diagnostics, Service Notifications, and Driving Insights
- Less worry: Crash Alert, Roadside Assistance, and Real-Time Location Services

How It Works

RECEIVE ADAPTERS

Place your order through our Dealer Portal and we'll set you up with Dealer Installation Kits including activation instructions for you and your customers, and complimentary marketing materials for your lot and showroom.

EARN ACTIVATION CREDIT

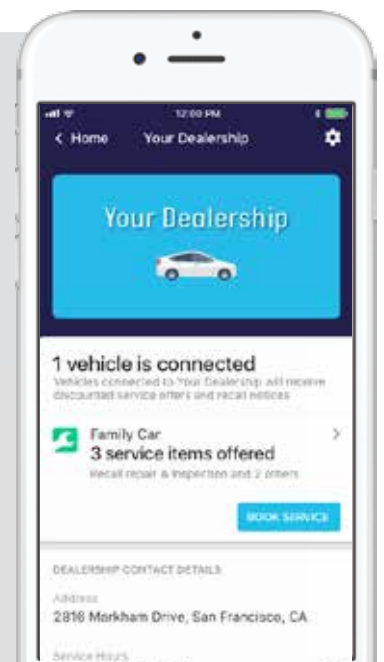

Set up your customer's account during new car purchase, help them download the Automatic app, and install the adapter into the OBD port in their car. For every customer your Dealership activates, you'll receive credit towards your next Automatic order.

INCREASE SERVICE VISITS

Once connected, customers will receive important updates, service notifications, and more on their smartphones, right next to their text messages and news alerts. Plus, Automatic enables them to book appointments directly at your Dealership through the app.

THREE YEARS OF FREE CRASH ALERT AND CONNECTED MAINTENANCE

plus a free 6-month premium subscription for your customers when activated

Enroll in **The Automatic Dealer Program** today at automatic.com/dealer
