CREATE pandora® STATIONS
# Create ad-free music stations based on your favorite artists.

There are two ways to create a station.

1

Start a voice search

Tap the "Search" button on your radio and say the name of any artist when prompted. From the results, pick the artist featured with the badge to launch your personalized station.

2

Related button

When you're listening to a satellite or online-only channel and you hear an artist you love, tap the "Related" button on the radio. Then pick the artist featured with the badge to launch your personalized station.

After that:

When you're listening, rate tracks using the thumbs up or thumbs down button to further refine your personalized station. You can also pause or skip forward.

At any time, you can press the SXM Profile/Settings Button to access your stored favorite Personalized Stations.

Love the channel you've created?

Store it as a preset, just like any other SiriusXM channel, in the preset bar.
