

NissanConnect® Services powered by SiriusXM®¹ provides added safety, security and convenience features that are designed to keep your clients connected to their vehicle, even when they are not behind the wheel. **Standard on all 2023 ARIYA® models - features may vary.**

WHAT'S NEW?

New to NissanConnect Services, the 2023 ARIYA launches with a suite of new EV features to help owners stay connected to their vehicles.

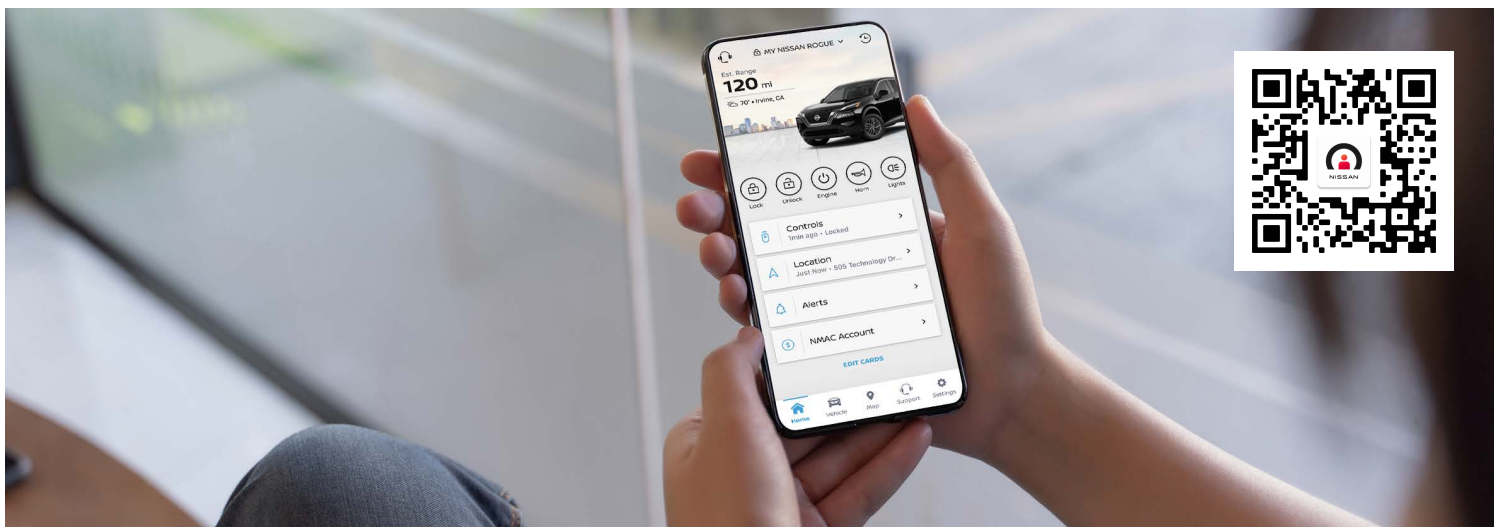

New ARIYA customers can use the NMyNISSAN app to locate charging stations, check their battery status, adjust the climate control, and view their energy consumption. Also new for ARIYA is Intelligent Route Planner, a smart route assistance feature that allows drivers to pre-plan trips with charging stops and send the route directly to their vehicle.

ARIYA customers that are ProPILOT Assist 2.0 capable will be able to experience hands-free driving, lane change assistance and guided single-lane freeway driving.

ACCESSING NISSANCONNECT SERVICES

NissanConnect Services features can be accessed through the customer's computer, smartphone, smartwatch², or with Amazon Alexa or the Google Assistant. Be sure to have your customer download the MyNISSAN app from the App Store or Google Play. Customers can log in using their MyNISSAN Owner Portal email and password created at enrollment. From the app, customers can:

- Remotely control onboard features of their ARIYA, set customizable alerts, see their vehicle's last known location, and much more.

ENROLLING YOUR CUSTOMERS

Included trials start on the vehicle's purchase date, so it's important to enroll your customers to ensure they have the full opportunity to use their services. You can help the customer create app credentials during NCAR 2.0 delivery.

1. During Feature Presentation, navigate to the Owner Services section.
2. Have the customer confirm their email address and input a password.*
***This email address and password will be used as the customer's login credentials for the app.**
3. Have the customer ACCEPT Terms & Conditions and select "Register".
4. Once submitted, the services will activate, and the customer can log in to the app using the email and password established via NCAR.

For enrollment issues contact vcssupport@nissan-usa.com.
