

NissanConnect® Services powered by SiriusXM®¹ provides added safety, security and convenience features designed to keep your customers connected to their vehicle, even when they are not behind the wheel. **Available on select 2026 models.**

Why NissanConnect® Services Matter to Your Customers

- **Peace of Mind with Safety Features:** NissanConnect Services includes critical safety technologies like **Automatic Collision Notification**, which can automatically call for help in the event of an accident—providing reassurance when it matters most.
- **Remote Access from Anywhere:** Customers can control their vehicle remotely using their **smartphone**, **smartwatch**³, or even **voice commands**—whether it's pre-heating or cooling the cabin temperature, locking the doors, or checking vehicle status.
- **Seamless Integration with Google Built-in:** Select models now feature **Google built-in**, giving customers access to Google Assistant, Google Maps, and apps from **Google Play**—all from the vehicle's infotainment screen.
- **New! In-Vehicle Wi-Fi Hotspot:** Connect up to **seven devices**—ideal for families and professionals on the move. Perfect for families or professionals who want to stay connected on the go.

PRO TIP 1 Show Customer The Benefits

Download the MyNISSAN App and use Demo Mode to walk customers through key features like Remote Climate Control with Scheduling. Highlight the ability to add up to four Additional Drivers, so family members can access features and alerts—no separate logins needed. It's a simple way to show how Nissan keeps everyone connected.

PRO TIP 2 Check For The SOS Button

The easiest way to tell if a vehicle is equipped with NissanConnect Services is to check for the SOS button in the overhead console.

Enrolling Your Customers

Included trials start on the vehicle's purchase date, so it's important to enroll your customers to ensure they have the full opportunity to use their connected feature and services. To optimize the owner experience, you can help customers enroll in NissanConnect Services as part of their NCAR vehicle delivery.

1. When complete with Step 2 Delivery Readiness in NCAR go to Step 3 Onboarding. Customer information will be pre-populated with inputs from their NCAR profile.
2. Have the customer verify, edit or add any necessary profile information
3. Have the customer enter or confirm their email address and input a password and confirm mobile number to receive SMS link.
*This email address and password will be used as the customer's login credentials for the MyNISSAN App.
4. Have the customer ACCEPT Nissan Connected Vehicle Services Subscriber Terms and Conditions and select "Register".
5. Upon consent of a one-time text, a link will be sent to the customer's mobile number to download the MyNISSAN App.
6. Once submitted, the services will activate, and the customer can log in to the MyNISSAN App using the email and password established via NCAR.

For enrollment issues contact ncs@nissan-usa.com.

Setting Up The Vehicle's Main Display

On select models NissanConnect credentials must be entered on the head unit in the vehicle to enable remote features. Follow these simple steps:

1. Tap "Set Up Profile" and name it using the customer's Gmail or associated account.
2. Review and accept the **Google Terms of Service**.
3. Tap "NissanConnect Login" and enter the customer's NissanConnect ID and password (same as used during enrollment).
4. Tap "Login", then "Next".

 A green check mark on the profile page confirms successful activation.
